Engineer. Designer. Hacker.

Knoxville, TN / Remote

Hello World,

I am a Senior Full Stack Software Engineer building award-winning UIs for non-profits, government contracts, and startups with extensive experience utilizing **Node**, **Typescript**, **React**, and **Redux** in the Marketing and Analytics business sector. In addition, I'm always acquiring new skills and interests, and am currently pursuing certifications in the Offensive Security and InfoSec spaces

A few other skills...

AWS   GRAPHQL   MONGODB   JEST

ES6/7/8+   KALI   MACHINE LEANING   ELM

ELIXIR   SERVERLESS   CIRCLE CI   DOCKER

JOE BRUNO

Driven. Passionate.
Life-long learner.
